# Your Connection to NJ's Influential Health Care Providers

*Nurses Weekly* reaches nurses across the state of New Jersey, as well as students interested in a nursing career. These important and influential health care providers are loyal readers of our award-winning e-publication, which curates exciting original content as well as reporting on important nursing news from around the state and the nation and delivers it straight to their inboxes.

## THE VALUE OF ADVERTISING IN NURSES WEEKLY

NJSNA distributes a carefully curated email blast with information on what is happening and up and coming in the nursing community.

Nurses are very involved and love to read about their peers and keep up with new developments in the health care industry.

On average, 36.2% of subscribers will open the email. Over 5.6% of those opening the publication have clicked through the content.

Since 2016, when the NJSNA newsletter began, more than 1,400,000 emails have been distributed to an ever growing audience of 59,000 nurses.

## WHAT OUR READERS ARE SAYING

“The NJSNA e-newsletter really brings together pertinent information that all nurses need to know professionally. I love the colorful format and easy to read summary with option to click on what you want to know more of. I love that it provides national news, state news, and truly focuses on caring for self and what is important to know about hot topics affecting our profession. It is an easy and informative read!”

- Kate Gillespie, MBA RN Assistant Vice President Orthopedic Service Line, NJSNA Member
